## Developer

Permanent full-time position

Glasgows, Unit 5, Centurion Court, Farington, Leyland, Lancashire, PR25 3UQ

[www.glasgows.co.uk](http://www.glasgows.co.uk)

### Who are you?

We're looking for an enthusiastic software developer to join our talented team, supporting us in delivering our impressive and increasing portfolio of work. You will report directly to the Head of Digital and assist with all functions of software coding and design. Your primary focus will be building software by writing code, as well as modifying software to fix errors, adapt it to new hardware, improve its performance, or upgrade interfaces. You will also be involved in directing system testing and validation procedures, working with end users and internal project teams on technical issues including software system design and maintenance.

You should have extensive knowledge of programming languages, the software development life-cycle, and the ability to work in a team environment to varying deadlines. You should be a highly motivated individual with a desire to continually improve your coding and design skills.

### Who are we?

Glasgows is one of the UK's leading event, digital and video agencies. We are based in Leyland, Lancashire and have a large and varied client portfolio and a well-established track record spanning the last 34 years, specialising in live events.

**everything** is possible

## The role

Working as part of the digital development team you take responsibility for the completion of tasks assigned to you by the Head of Digital to a high standard, taking pride in your work, and contributing to the development of new ideas / concepts for integration into our digital services. This is an exciting opportunity for an individual who will thrive under pressure, relish a fast-paced environment and take interest in varied work from our diverse range of clients.

Key responsibilities include:

- Modifying software to fix errors, adapt it to new hardware, improve its performance, or upgrade interfaces.
- Directing system testing and validation procedures.
- Directing software programming and documentation development.
- Consulting with departments or users on project status and proposals.
- Working with users or departments on technical issues including software system design and maintenance.
- Analysing information to recommend and plan the installation of new systems or modifications of an existing system.
- Designing and developing software systems fit for purpose, translating a brief to ensure desired outcomes are met and explaining clearly design consequences in a digestible way.
- Preparing reports on programming project specifications, activities, or status.
- Conferring with project managers to obtain information on limitations or capabilities.

Developer Requirements:

- Bachelor's degree in computer science or related degree.
- Knowledge of the software development life-cycle.
- The desire to work in a fast-paced environment.
- Ability to develop unit testing of code components or complete applications.
- Creativity is always a plus.
- Must be a full-stack developer and understand concepts of software engineering.
- Experience working on a variety of software development projects.
- Deep programming language knowledge.

This role comes with the opportunity to attend events held across the UK. The ability to travel and stay overnight on occasions, is required.

## What we're offering

The position carries an excellent package, expected to be in the region of £30K to £35K (pro rata) depending on experience, plus benefits including a contributory pension scheme and non-contractual profit-related bonus scheme. The post is based at our main office in Leyland however, under current lockdown circumstances, the ability to work from home is required.

## Interested?

If you possess these skills and would enjoy working in a friendly environment as part of a hard-working team, then we want to hear from you.

Please email your CV, including details pertaining to the skills/experience requirements above, along with the names of two referees from your present/previous employment to [g@glasgows.co.uk](mailto:g@glasgows.co.uk).

All applications will be treated with confidentiality.

*Glasgows is an equal opportunities employer and welcomes all applications.*
